

Performance Task 1 Review

Unit 3 – Lessons 1,2,3

Page 91 - 104

 1. Draw an equal group of the following equations:

 2. Write the multiplication equation that represents this equal groups:

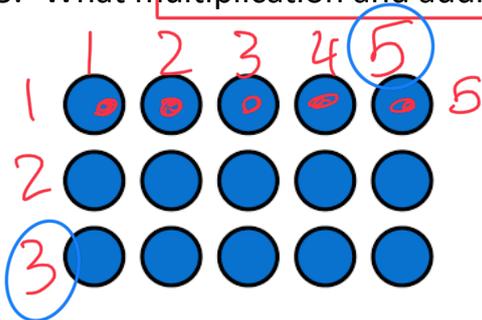

$$2 \times 4 = 8$$

$$4 \times 2 = 8$$

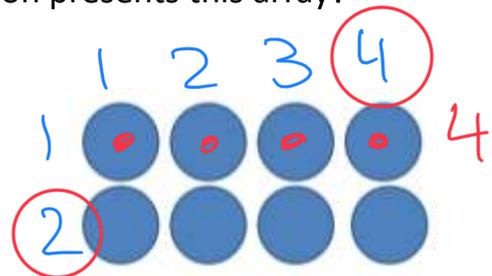

$$3 \times 5 = 15$$

$$5 \times 3 = 15$$

 3. What multiplication and addition equation presents this array?

$$5 \times 3 = 15$$

$$5 + 5 + 5 = 15$$

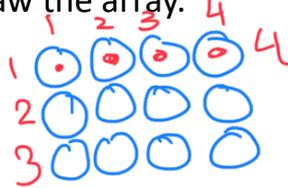

$$4 \times 2 = 8$$

$$4 + 4 = 8$$

4. Ms Samya has 3 pencils in each of her 4 boxes. How many pencils does Ms Samya have in all? Draw an array to present the problem and write the equation.

a. Draw the array.

b. write the equation.

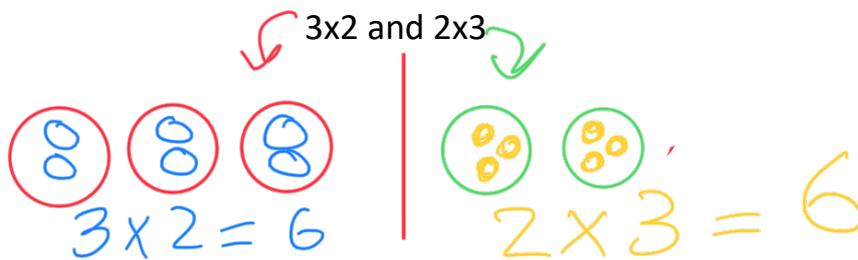

$$3 \times 4 = 12$$

or

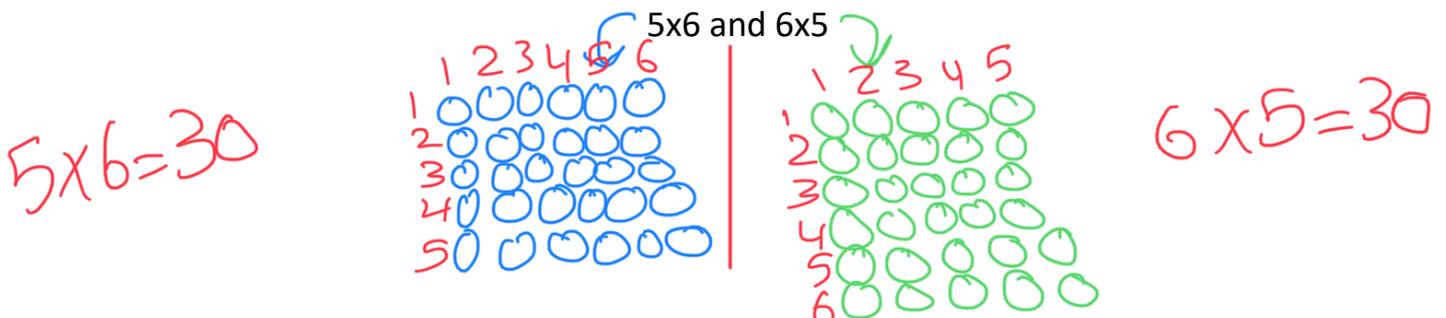

$$4 \times 3 = 12$$

$$4 + 4 + 4 = 12$$

5. Draw representation of equal groups to show that the product.

6. Draw representation of arrays to show that the product.

7. What makes the equation true? Fill in the blanks.

$8 \times 0 = \underline{0} \times 8$

$10 \times 2 = 10 \times \underline{2}$

switch numbers.
