

Name: _____ Grade 1: ___ Date: _____

Circle the correct answers (5)

1. _____ are how something looks, feels, Smells, sounds and tastes
 - a. Temperature
 - b. Properties
 - c. Shadows

2. Wood , plastic, rubber and metal are examples of:
 - a. Materials
 - b. Liquids
 - c. Gases

3. A _____ makes smaller things look larger?
 - a. Ruler
 - b. Thermometer
 - c. Hand lens

4. When a solid object blocks the light it is called a:
 - a. Shadow
 - b. Property
 - c. Liquid

5. What does this picture show?
 - a. Floating
 - b. Sinking
 - c. Solubility

Fill in the correct answer (4)

<u>Gases</u>	<u>Liquid</u>	<u>Matter</u>	<u>Solid</u>
---------------------	----------------------	----------------------	---------------------

1. All things are made of _____.

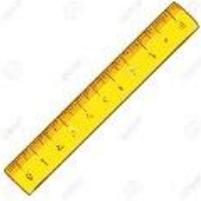

2. A _____ does not have its own shape.

3. A _____ has a shape of its own.

4. The air is made of different _____

What are the following solid objects made from? (5)

Wood	Plastic	Rubber	Glass	Metal
				
				
				
				
				

Match the tools with their function. (4)**Ruler**

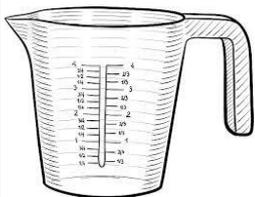

Measures the temperature.

**Balance**

Measures how much space a liquid can take up.

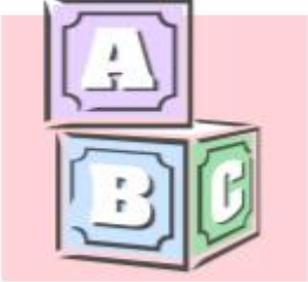

**Thermometer**

Measures length.

**Measuring Cup**

Measures mass.

Circle the correct form of matter (5)

	<p>Solid Liquid Gas</p>		<p>Solid Liquid Gas</p>
	<p>Solid Liquid Gas</p>		<p>Solid Liquid Gas</p>
	<p>Solid Liquid Gas</p>		<p>Solid Liquid Gas</p>
	<p>Solid Liquid Gas</p>		<p>Solid Liquid Gas</p>
	<p>Solid Liquid Gas</p>		<p>Solid Liquid Gas</p>

Label which liquid flows *quickly* and which flows *slowly*
