## **Answer Key**

**ASP Elite Stream Science**

**Choose the correct answer - A, B, C or D**

1. Horses only eat plants. Which of the following would be used to describe a horse?  
(A) Decomposer  
(B) Omnivore  
(C) Carnivore  
**(D) Herbivore**
  
2. A lion eats only meat (animals). Which of the following would be used to describe a lion?  
(A) Decomposer  
(B) Omnivore  
**(C) Carnivore**  
(D) Herbivore
  
3. A bear eats both plants and animals. Which of the following would be used to describe a bear?  
(A) Decomposer  
**(B) Omnivore**  
(C) Carnivore  
(D) Herbivore

4. Bacteria breaks down dead plant and animal material. Which of the following would be used to describe bacteria?

(A) Decomposer

(B) Omnivore

(C) Carnivore

(D) Herbivore

5. Which of the following would be described as a producer?

(A) Lion

(B) Horse

(C) Bear

(D) Plant

6. A consumer is an animal that makes its own food:

(A) True

(B) False

7. Plants → Caterpillar → Birds is example of:

(A) A food web

(B) A food chain

(C) Food cycle

(D) Ecosystem

8. Organisms which feed on secondary consumers are called:

- (A) Producers
- (B) Herbivores
- (C) Primary consumers
- (D) Tertiary consumers

9. Organisms which feed on producers are called:

- (A) Secondary consumers
- (B) Carnivores
- (C) Primary consumers
- (D) Tertiary consumers

10. The figure below shows a food chain. Which of the organisms would be described as a producer?

- (A) Organism A
- (B) Organism B
- (C) Organism C
- (D) Organism D

11. The figure below shows a food chain. Which of the organisms would be described as a secondary consumer?

- (A) Organism A
- (B) Organism B
- (C) Organism C**
- (D) Organism D

12. The figure below shows a food chain. Which of the organisms would be described as an herbivore?

- (A) Organism A
- (B) Organism B**
- (C) Organism C
- (D) Organism D

13. The figure below shows a food web. Which of the organisms would be described as an omnivore?

- (A) Carrots
- (B) Rabbits
- (C) Foxes
- (D) Birds**

14. The figure below shows a food web. Which of the following would be a food chain from this food web?

- (A) Carrots → Mice → Owls
- (B) Rabbits → Foxes → Birds
- (C) Grains → Mice → Owls**
- (D) Grasses → Grasshoppers → Grains

15. The figure below shows a food web. Which of the following would be described as a producer?

- (A) Carrots
- (B) Grasses
- (C) Grains
- (D) All of the above
